Chinnamanur, Tamil Nadu.

Professional Summary

Entry-level SOC Analyst with a self-built detection lab spanning SIEM (Splunk, QRadar), EDR/XDR, and Sysmon-based threat hunting mapped to MITRE ATT&CK. Hands-on experience investigating brute-force attacks, malicious PowerShell activity, and network beaconing, with a strong foundation in incident triage and Windows/Linux log analysis.

Technical Skills

- SIEM: Splunk Enterprise, IBM QRadar, Microsoft Sentinel (Basics)
- EDR/XDR: Microsoft Defender XDR, CrowdStrike (Basics)
- Networking: TCP/IP, DNS, HTTP/HTTPS, DHCP, SMTP, SSH
- Operating Systems: Windows, Linux
- Security Tools: Wireshark, Sysmon, VirusTotal, Any.Run, AbuseIPDB
- Frameworks: MITRE ATT&CK, Cyber Kill Chain
- Scripting: Python

SOC Home Lab Projects

- Built a SOC lab using Windows, Ubuntu, Splunk, and Sysmon.
- Configured centralized log collection and monitoring.
- Created detections for brute-force attacks using Event ID 4625.
- Investigated suspicious PowerShell activity using Event ID 4104.
- Performed threat hunting for malware execution and persistence.
- Detected network beaconing and suspicious outbound traffic.
- Mapped attacks to the MITRE ATT&CK framework. Threat Hunting Experience.

Threat Hunting Experience

- Hunted for failed logon attacks using Event IDs 4624 and 4625.
- Analyzed encoded PowerShell commands and scripts.
- Investigated Sysmon Event IDs 1, 3, 7, and 11.
- Performed IOC enrichment using VirusTotal.

Education

Bachelor's degree in B.SC Computer Science (2023-2026) from Mother Theresa arts and science college.t.sindalaicherry.
